

Kosciusko Water and Woodland Invasive Partnership

Protecting Land & Water in Kosciusko County

What is an invasive species and why is it important to you?

Invasive species include plants, animals, and other organisms (e.g., microbes). Invasive species can lead to the extinction of native plants and animals, destroy biodiversity, and permanently alter habitats. An "invasive species" is defined as a species that is:

- 1) non-native (or alien) to the ecosystem under consideration and
- 2) whose introduction causes or is likely to cause economic or environmental harm or harm to human health.

KWWIP was founded in 2020 to Target these Goals:

- Take Action to Protect Natural Resources
- Determine Extent of Local Invasive Species Problems
- Increase Citizen Awareness
- Increase Local and State Government Relations

Become a Member of KWWIP

You can make a difference in your community, protect our natural resources, educate others, and assist in eradicating invasive plants.

Membership is an affirmation that you care about your community and our environment - and you are taking action.

Your involvement allows us to accomplish our mission to ***build community support to protect the land and water in Kosciusko County from non-native invasive species.***

www.KWWIP.org

Membership Benefits

- Support local conservation and land stewardship
- Be a part of the conservation community
- Receive a free property assessment of invasive plants
- Network with professionals from many disciplines through conferences and field days
- Play a critical role in invasive species legislation in the state of Indiana
